

Mongo DB Setup

The screenshot shows the 'Search & Vector Search' page in the MongoDB Atlas console. The left sidebar contains navigation links for 'Search Indexes', 'AUTO EMBEDDING', 'Usage', 'Rate Limits', 'SHORTCUTS', 'Cluster Metrics', and 'Data Explorer'. The main content area is titled 'Search & Vector Search' and includes a search bar, a 'VIEW COMPOUND QUERY EXAMPLE' button, and a 'CREATE SEARCH INDEX' button. A blue banner indicates that M0 free clusters have a limit of 3 search and vector indexes per cluster, with 2 of 3 indexes used. Below this, a table lists the existing indexes:

Database	Collection	Index Name	Status	Queryable	Type	Index Fields
db_resumes	collection_resumes	BM25_Index	READY View status details	✓	search	"certificatio", "currentOrg", "currentTitle", "educationI", "email"...15...
db_resumes	collection_resumes	resume_vector_index	READY View status details	✓	vectorSearch	"embedding", "name", "en", "phone"...14...

The screenshot shows the 'Data Explorer' page in the MongoDB Atlas console. The left sidebar contains navigation links for 'My Queries', 'Data Modeling', 'CLUSTERS (1)', and a search bar. The main content area is titled 'Data Explorer' and shows the 'collection_resumes' collection. The breadcrumb path is 'Cluster0 > db_resumes > collection_resumes'. The 'Documents' tab is selected, showing a query editor with the text 'Type a query: { field: 'value' } or [Generate query](#)'. The query editor includes buttons for 'Explain', 'Reset', 'Find', and 'Options'. The bottom of the page shows the 'Alert System Status: All Good' and the footer with copyright information: '©2026 MongoDB, Inc. Status Terms Privacy Atlas Blog Contact Sales'.
